## **Harbor Group Consulting Launches High Street Valuations**

*Insurance advisory firm launches new platform providing insurance valuations*

The insurance advisory firm Harbor Group Consulting LLC has announced the formation of High Street Valuations LLC, a company specializing in providing insurable values for commercial real estate properties ranging from single properties to large portfolios. While market value appraisal companies include insurable value as an added service, High Street Valuations is one of the only in the industry with an extensive database and unique experience to place a singular focus on this important offering.

“When we realized the lack of focus on insurable value, we saw an opportunity to create a more viable solution for clients,” said Michael Liebowitz, CEO of Harbor Group Consulting. “High Street allows us to do just that through our attention to detail, unique methodology and dedication to ensuring high-quality service and client satisfaction.”

High Street Valuations is a valuation platform for banks, lenders, property owners and property management companies that assesses costs to replace buildings, quality additions and mechanicals. The High Street team combines proprietary data, unique experience and highly complex algorithms, developing an innovative process to ensure accuracy and minimize clients’ exposure.

“For all stakeholders, it is essential to manage the risk and exposure due to unforeseen circumstances,” added Liebowitz. “At High Street Valuations, our focus is on ensuring our clients have the most accurate valuations in order to mitigate their risk as much as possible.”
